

# Vision neXt™

The **Vision neXt** is our total teller automation platform helping banks transform their branches into customer-centric service centers. We've added unique features such as our patented auto-alignment mechanism and swing-open covers to the proven reliability for which Panini is known, packaged in a new, compact European design. All of this increases a bank's productivity, minimizes operator training, and eliminates the need for additional teller devices, lowering operational costs.

## This Revolutionary Platform...

 Leverages the world's largest installed base and most trusted brand in distributed capture — the Panini Vision X — meeting and exceeding the quality and innovation benchmarks customers have come to expect from Panini.

 Provides rich functionality, optimized ergonomics, price/performance leadership, the industry's best total cost of ownership, and demonstrable savings, backed by Panini's world-class service and support capabilities.

 Features breakthrough innovation and versatile capabilities:

- Automatic document alignment to ensure transaction accuracy and integrity
- Multi-format document capture to fully extend investment to document and transaction automation
- Economical multi-function printer to enable a wide range of printing capabilities in one compact and cost effective device

## Trust. Value. Innovation.

The Vision neXt is built on a foundation of distributed capture expertise embedded within the genetic code of Panini.

**“As a payment technology innovator, we are not bound by conventional thinking, and the Panini Vision neXt is a testament to our ongoing effort to deliver breakthrough technology that exceeds the high expectations of our customers and partners.”**

**Michael Pratt,**  
CEO, Panini

# Vision neXt™

## State-of-the-Art Advanced Graphics Printer (AGP)

Capable of printing customer receipts, endorsements, validations and more.

Prints up to 14 lines of text and graphic images including logos and check images.

## Full color, Dual-Sided ID Card Scanning

For new account creation or customer identification applications.

## Advanced Auto-alignment

Virtually eliminating the need to hand jog or machine jog items, creating dramatic savings related to rework and errors.

## Ergonomic design

With swing-open covers allowing complete visibility to device interior for cleaning, jam removal, and ink-cartridge replacement.

## Practical and Breakthrough Innovation

## Accurate MICR and Advanced Imaging

Advanced MICR reading algorithms – including optical correction for optimal decoding accuracy – and superior grayscale and color duplex scanning.

## Exception Pocket

Efficiently manages foreign items, rejected transactions, and wrongly positioned items on the fly.
