

BACK-OFFICE CASH RECYCLERS

Cash recycling in a retail environment is no longer just for large retailers. **CIMA** manufactures the industry's most comprehensive range of back-office cash recycling solutions. Our entry-level, mid-range, and high-capacity machines plus flexible software solutions help any retailer reduce the cost of managing cash by automating almost all manual cash handling processes.

Our solutions can also be implemented without coin recycling (our JUNIOR configurations). This provides a lower cost, note-only range for environments where there is no coin or coin will be managed manually.

CIMA
WHEREVER YOU COUNT

ARGENTO

ENTRY-LEVEL back-office note and coin recycling solution for smaller retailers or venues. Affordable with all the functionality you would expect from a complete back-office cash recycling solution.

- **ARGENTO: SDM504S** note recycler + **CDS803** coin recycler.
- **ARGENTO PRO: SDM504S** note recycler + **CDS804** coin recycler.
- **ARGENTO JR: SDM504S** only.
- 4 x roll storage modules (RSM) for recycling, 400 notes per RSM, 1,600 notes total recycling.
- Unique self-sealing, stacking bag system for up to 3,000 surplus / over flow notes. Eliminates cassettes and allows CIT operators to pick up cash quickly without having to open and de-cash cassettes in-store.
- **CAOS** flexible on-device software application and **C-Link** compatible.

DIMENSIONS:

- **Width:** 880mm (34.64in)
- **Depth:** 1,055mm (41.54in)
- **Height:** 1,100mm (43.30in)

ORO

MID-RANGE back-office note and coin recycling solution for small to medium sized retailers or venues. Affordable with all the functionality you would expect from a complete back-office cash recycling solution.

- **ORO: SDM505S** note recycler + **CDS803** coin recycler.
- **ORO PRO: SDM505S** note recycler + **CDS804** coin recycler.
- **ORO JR: SDM505S** only.
- 5 x roll storage modules (RSM) for recycling, 400 notes per RSM, 2,000 notes total recycling.
- Unique self-sealing, stacking bag system for up to 4,000 surplus / over flow notes. Eliminates cassettes and allows CIT operators to pick up cash quickly without having to open and de-cash cassettes in-store.
- **CAOS** flexible on-device software application and **C-Link** compatible.

DIMENSIONS:

- **Width:** 897mm (35.32in)
- **Depth:** 765mm (30.11in)
- **Height:** 1,245mm (49in)

PLATINO

HIGHER-CAPACITY back-office note and coin recycling solution for medium to large retailers or venues. Highly configurable and flexible denomination configuration with all the functionality you would expect from a complete back-office cash recycling solution.

- **PLATINO: AST7008S** note recycler + **CDS803** coin recycler.
- **PLATINO PRO: AST7008S** note recycler + **CDS804** coin recycler.
- **PLATINO JR: AST7008S** only.
- 8 x roll storage modules (RSM) for recycling, 500 notes per RSM, 4,000 notes total recycling.
- Unique self-sealing, stacking bag system or up to 3,000 surplus / overflow notes. Eliminates cassettes and allows CIT operators to pick up cash quickly without having to open and de-cash cassettes in-store.
- **CAOS** flexible on-device software application and **C-Link** compatible.

DIMENSIONS:

- **Width:** 880mm (34.64in)
- **Depth:** 1,055mm (41.54in)
- **Height:** 1,100mm (43.30in)

DIAMANTE

HIGHEST-CAPACITY back-office note and coin recycling solution for large or high cash volume retailers or venues. Highly configurable and high capacity, flexible denomination configuration with all the functionality you would expect from a complete back-office cash recycling solution.

- **DIAMANTE: AST9000** note recycler + **CDS803** coin recycler.
- **DIAMANTE PRO: AST9000** note recycler + **CDS804** coin recycler.
- **DIAMANTE JR: AST9000** only.
- 4 x high-capacity recycling cassettes, 3,400 notes per cassette, 13,600 notes total recycling.
- 2,800 notes in overflow cassette. More than 1 overflow cassette possible with reduction in recycling capacity.
- **CAOS** flexible on-device software application and **C-Link** compatible.

DIMENSIONS:

- **Width:** 895mm (35.22in)
- **Depth:** 1,021mm (40.20in)
- **Height:** 1,100mm (43.30in)

SOFTWARE

Building great machines that are fit-for-purpose is essential. Different segments have different capacity and volume requirements. However, flexible and scalable software across these segments is just as important. **CIMA** delivers on three primary categories of cash automation software:

1. ON-DEVICE SOFTWARE

Required to interact with the actual machine. Highly configurable to suit a variety of business requirements.

2. INTEGRATION SOFTWARE

Suite of API's and connectivity solutions to facilitate the movement of data from CIMA machines to third-party applications or vice-versa.

3. REMOTE MANAGEMENT AND REPORTING SOFTWARE

On-premise or cloud-based platform that provides remote device monitoring, remote configuration, remote software management, centralized reporting, and data analytics.
